

DF-920

Fully Automatic Tabletop Folder

Let Duplo's DF-920 fully automatic tabletop folder take care of all your folding needs. High-speed folding up to 280 sheets per minute has never been easier! With six popular pre-programmed folds and a multitude of custom folds, crisp and accurate folding for a variety of applications is accessed at the touch of a button.

Unique sound absorbers inside the machine dramatically reduce the amount of sound not only when folding but also when fold stoppers are moving. This makes the high-speed DF-920 ideal for all businesses and organizations.

The patented feed system ensures reliable feeding and accurate folds for a wide range of paper sizes,

weights, and stocks. No manual adjustments are needed, as the DF-920 automatically recognizes five popular paper sizes – letter, legal, ledger, 1/2-letter, and 1/2-legal. When powering back on, the fast set-up mode allows the DF-920 to automatically recall the last job.

Simply load the automatic elevating feed tray with up to 500 sheets, select the fold type, and hit start. A four-digit counter may be set to ascend or descend. Additionally, the batch mode allows the operator to input the exact number of sheets to be folded in each batch.

The Duplo DF-920 is the fastest, most easy to use tabletop folder for all applications demanding speed and precision folding.

- High-speed folding up to 280 sheets per minute
- Sound absorbers ensure quiet operation
- Six popular pre-programmed folds
- Special "cross folding" for right-angle folds
- Two programmable memory settings for custom folds

SPECIAL FEATURES

- Sound absorbers ensure quiet operation
- Automatic setting for six popular folds with electronic fine adjustments
- Two programmable memory settings for custom folds
- "Cross folding" for right-angle folds
- Easy-to-read control panel
- Feed tray automatically lifts to start position
- Automatic jam detector immediately stops operation
- Stacker rollers automatically adjust to paper size and fold type
- Batch Mode capability
- Ascending and descending counter

DF-920 SPECIFICATIONS

PAPER SIZE (WxL)	Max. 297 x 430mm Min. 130 x 182mm
PAPER TYPE	Bond, NCR, some coated and card stock
PAPER WEIGHT	16 to 80 lb.
FOLD TYPES	Single, double, half accordion, letter, accordion, brochure, right-angle*, custom folds
PAPER FEED TRAY CAPACITY	Up to 500 sheets
SPEED	Up to 280** sheets per minute
PAPER FEED METHOD	Patented friction feed with skew correction
PAPER FEED TRAY CONTROL FUNCTION	Paper presence detection, automatic ascend/descend
PAPER SIZES FOR AUTOMATIC PAPER SETTINGS	Letter (215 x 280mm), Legal (215 x 355mm), Ledger (280 x 430mm), 1/2-Letter (140 x 215mm), 1/2-Legal (177x 215mm)
PAPER FEED ERROR DETECTION FUNCTIONS	Misfeed, paper jam
COUNTER	4-digit ascending and descending counter
OTHER DETECTION FUNCTIONS	Opening/closing top cover; side cover; paper ejection section cover with/without folding plates 1,2
ENERGY SAVING FUNCTIONS	LCD backlight automatic OFF, power still ON alert
POWER SUPPLY	100 - 240 VAC 50/60 Hz
CURRENT CONSUMPTION	1.4 - 0.7A (95 W)
DIMENSIONS (WxDxH)	In use 1.8m x .5m x .5m In storage .65m x .5m x .5m
WEIGHT	44kgs.

* 14 to 28 lb. paper

** Varies upon paper size and type of fold

Production rates are based on optimal operating conditions and may vary depending on stock and environmental conditions. As part of our continuous product improvement program, specifications are subject to change without notice.
