SI-30

10 TIMES FASTER THAN BY HAND

How much time do you spend on mailings? On average, it takes you 1 hour to hand fold and insert 100 pieces of mail. Did you know that the SI-30 can do the same job more than 10 times faster? With a maximum speed of 1.350 envelopes per hour, the SI-30 can easily save you more than 2 days every month. Imagine what you can do with this extra time. What is more, its ease of use, compact design, and quiet operation makes the SI-30 fit perfectly into any office environment.

WIDE RANGE OF APPLICATIONS

Does your mail vary in paper size, paper quality etc.? Does it consist of invoices, cards or reply envelopes? The SI-30 does it all for you. The Document Feeders enables you to process up to 2 x A4 documents. Do you have inserts that are up to A5 size? Just use the Insert Feeder.

EASY TO USE - AS SIMPLE AS A PHOTOCOPIER

10 TIMES FASTER THAN BY HAND

SMALL FOOTPRINT - FITS ON ANY DESK

FULLY ACCESSIBLE - ERGONOMIC DESIGN

VARIOUS TYPES AND SIZES OF ENVELOPES

INSERT'N FRANK

Automate your total mail flow by connecting the SI-30 to a Neopost franking system.

PROFESSIONAL LOOKING MAIL PIECE

Effective communication starts with a professional looking mail piece. That is why the SI-30 assembles all documents before folding them. The result: the recipient opens the envelope and all the documents are presented together, always in the right order.

DAILY MAIL

The Daily Mail mode offers to process up to 5 sheets fed by hand, stapled or unstapled.

EVERY TYPE OF ENVELOPE

SI-30 can handles various types of envelopes from C5/6 up to C5. Up to 100 envelopes can easily be loaded in the envelope hopper.

USER-FRIENDLY

The SI-30 is designed so that anyone in the office can use it. The large clear control screen gives step by step prompts and guidance. To make things even easier, the system has a 9-job memory so regular mail runs can be recalled at the press of a button. SI-30 is as easy to use as a photocopier.

SI-30

10 TIMES FASTER THAN BY HAND

Remember the time when you had to put your mail together by hand? Manually collating, folding, inserting, sealing and stacking your mail pieces: a time-consuming business.

But there is a better way: the SI-30 folder inserter.

The SI-30 handles all your mail automatically, saving you time and money. It produces a professional looking mail piece and it is as easy to use as a photocopier.

FITS IN EVERY OFFICE ENVIRONMENT

Low noise level, great flexibility, compactness and matchless ease-of-use: these features make the SI-30 fit in any office environment.

SECURE PROCESSING

To ensure that every recipient gets the correct mail piece, Neopost's electro-mechanical thickness detection protects against double feeding. It is insensitive to dust, and works with toner or coloured paper.

The SI-30 measures the thickness of every document from each feeder via secure'n Feed.

EXCELLENT ACCESSIBILITY

The SI-30 gives you quick, safe and easy access to all parts of the paper path. You will quickly be up and running again if there is a break in production.
