Digital Inkjet Mailing System

IJ35

Small in design, big in efficiency

The IJ35 Digital Mailing System from Neopost features compact styling, combined with an easy-to-use operation, that will enhance any small business. Thoughtfully designed with a push-button keypad and no-mess Click 'N' Snap ink cartridges, the IJ35 is practical and intuitive. Simple controls include one-push access to many functions, while details of your chosen settings and options are shown in a big, clear graphic display with helpful prompts to guide you. Even the first-time user can easily get the mail out quickly, professionally, and efficiently!

With the IJ35 you will leave a professional impression on each piece of mail, and on your audience. With crisp, digital printing provided by Hewlett-Packard, the impression doesn't smear and always looks great. The IJ35 can print custom slogans and text messages that can even include high-resolution graphics, logos, and images. It's an extremely cost-effective and professional means for marketing to, or communicating with, clients.

The IJ35 maintains exceptional mail processing quality with speeds up to 60 letters per minute. It also prints onto mail pieces up to 10mm thick, and on uneven surfaces. For thicker pieces, there's a built-in, automatic label dispenser. With these and other features, like automatic date advance and an optional electronic weigh platform or scale, the IJ35 will save time and concerns over the details of processing your mail.

Small enough to place virtually anywhere, the IJ35 will keep valuable desk space uncluttered. With its sleek, compact and easy-to-use design, it is the perfect mailing system for raising your productivity. It is professional, efficient, and affordable.

Sleek, compact, and easy to use, the IJ35 will change the way your business handles its mail. Designed especially for the small business, it will fit right into your office with its modern design and easy operation.

And the IJ35 produces crisp, clean, and professional-looking mail that enhances the image of your business.

- Processes up to 60 letters per minute
- Weighs, feeds and meters mail effortlessly
- Recalls frequently used job set-ups with the push of a button
- Gives confidence to new users with a simple, intuitive user interface
- Prints personalized messages, logos, images, or mini-dies on your mailings
- Prints user-defined text messages on your mailings
- Keeps valuable desk space uncluttered
- Features the latest in Digital Meter Technology, with full IBI compliance

Post thicker mail or parcels with the press of a button. This built-in, easy-access dispenser holds up to 50 self-adhesive labels.

Track postal costs for up to 35 accounts and regularly analyze, client by client, your business' postage expense.

Load custom messages and images for high-resolution printing on your mail with Neopost's SmartCard® technology.

Replace the ink in your IJ35 the simple, no-mess way. With Neopost's exclusive Click 'N' Snap® cartridges, the awkward re-inking process of other meters is obsolete.
